

International Conference on Artificial Intelligence and Data Processing (IDAP 2018) will be held during September 28-29-30 2018, in İnönü University Turgut Özal Congress and Culture Centre. The conference will be held in the city of Malatya, which promises visitors joyful hours with historical texture, green nature and rich commercial activities. İnönü University is the one of prestigious universities in Turkey and hosted many national and international conferences, organizations by the support of campus and social facilities. We invite researches from academy and industry all over the world to present their innovative works on the scopes of artificial intelligence, data processing, image processing, data mining and smart industrial application, also share their fresh knowledge by science and business communities at IDAP 2018 Malatya.

Some highlights for IDAP 2018:

- Acceptance rate will be kept at **70%**.
- Papers must be a **minimum of 4 pages** and written in **English** or **Turkish**. In Turkish papers, *title, abstract* and *keyword* will also be added in English.

Scope of the conference covers following items but not limited to.

1. Artificial Intelligence
2. Artificial/Deep Learning
3. Cloud Computing
4. Data Mining/Big Data
5. High Performance Computing
6. Internet of Things
7. Virtual and Augmented Reality
8. Secure Systems
9. Signal/Image/Video Processing

10. Human–Machine Interaction
11. Bioinformatics
12. Robotics
13. Social Networks
14. Algorithms and Data Structures

Important Dates:

Submission of tutorials and special sessions proposals	March 15, 2018
Submission of regular and student papers	June 15, 2018
Notification of acceptance	August 15, 2018
Submission of camera-ready papers	August 30, 2018
Early Registration Deadline	August 30, 2018
